Editorial Note v

Research Papers

G.A. Manley, G. Taschenberger and H. Oeckinghaus (Germany)
Influence of contralateral acoustic stimulation on distortion-product and spontaneous otoacoustic emissions in the barn owl 1

K.C.M. Campbell, R.P. Meech, L.P. Rybak and L.F. Hughes (USA)
D-Methionine protects against cisplatin damage to the stria vascularis 13

G.-D. Chen and D.G. Sinex (USA)
Effects of interaural time differences on the responses of chinchilla inferior colliculus neurons to consonant-vowel syllables 29

D.L. Park, D.A. Girod and D. Durham (USA)
Tonotopic changes in 2-deoxyglucose activity in chick cochlear nucleus during hair cell loss and regeneration 45

D.J.B. Muñoz, P.R. Thorne and G.D. Housley (New Zealand)
P2X receptor-mediated changes in cochlear potentials arising from exogenous adenosine 5′-triphosphate in endolymph 56

D. Li, C.M. Henley and B.W. O'Malley Jr. (USA)
Distortion product otoacoustic emissions and outer hair cell defects in the hyt/hyt mutant mouse 65

P.L. Marzella, L.N. Gillespie, G.M. Clark, P.F. Bartlett and T.J. Kilpatrick (Australia)
The neurotrophins act synergistically with LIF and members of the TGF-β superfamily to promote the survival of spiral ganglia neurons in vitro 73

H. Rask-Andersen, J.E. DeMott, D. Bagger-Sjöbäck and A.N. Salt (Sweden, USA)
Morphological changes of the endolymphatic sac induced by microinjection of artificial endolymph into the cochlea 81

A.M. Jimenez, B.B. Stagner, G.K. Martin and B.L. Lonsbury-Martin (USA)
Age-related loss of distortion product otoacoustic emissions in four mouse strains 91

L. Chen, J.B. Kelly and S.H. Wu (Canada)
The commissure of Probst as a source of GABAergic inhibition 106

G.A. O'Beirne and R.B. Patuzzi (Australia)
Basic properties of the sound-evoked post-auricular muscle response (PAMR) 115

R.B. Patuzzi and G.A. O'Beirne (Australia)
Effects of eye rotation on the sound-evoked post-auricular muscle response (PAMR) 133

Contents continued on inside back cover

CONTENTS Direct

This journal is part of **ContentsDirect**, the ***free*** alerting service which sends tables of contents by e-mail for Elsevier Science books and journals. You can register for **ContentsDirect** online at: **www.elsevier.nl/locate/contentsdirect**

0378-5955(199912)138:1/2;1-8

(Contents continued from back cover)

R.B. Patuzzi and G.A. O'Beirne (Australia)
A correlation method for detecting the sound-evoked post-auricular muscle response (PAMR) 147

M.-L. Barrenäs, O. Nylén and C. Hanson (Sweden)
The influence of karyotype on the auricle, otitis media and hearing in Turner syndrome 163

Z.-G. Jiang, J. Qiu, T. Ren and A.L. Nuttall (China, USA)
Membrane properties and the excitatory junction potentials in smooth muscle cells of cochlear spiral modiolar artery in guinea pigs 171

G.-D. Chen, M.L. McWilliams and L.D. Fechter (USA)
Intermittent noise-induced hearing loss and the influence of carbon monoxide 181

C. LeBlanc and R.P. Bobbin (USA)
An interaction between PPADS, an ATP antagonist, and a moderately intense sound in the cochlea 192

Erratum

A.E. Stenberg, H. Wang, L. Sahlin and M. Hultcrantz (Sweden)
Erratum to 'Mapping of estrogen receptors α and β in the inner ear of mouse and rat'. [Hear. Res. 136 (1999) 29–34] 201

Author Index Volume 138 202
